CITADEL DIVERSIFIED INVESTMENT TRUST

ANNUAL REPORT 2007

CITADEL DIVERSIFIED INVESTMENT TRUST

Citadel Diversified Investment Trust (the "Fund" or "Citadel Diversified") is a closed-end investment trust which became listed on the Toronto Stock Exchange on September 16, 1997. The Fund has a termination date of December 31, 2012 or such earlier or later date as the unitholders may determine in accordance with the provisions of the Fund's Declaration of Trust.

During 2007, Citadel Diversified paid total cash distributions of \$1.27 per unit compared to \$1.02 per unit in 2006. In addition to the regular monthly distributions of \$0.085 per unit for 2007, Citadel Diversified declared a special cash distribution of \$0.25 per unit and an estimated special unit distribution of \$0.75 per unit to unitholders of record on December 31, 2007. Upon completion of the Fund's 2007 tax information, the Fund adjusted the value of the special unit distribution to \$0.684 per unit to more accurately reflect tax splits on distributions received from its underlying portfolio holdings. The unit distribution, which was immediately consolidated into the Fund's previously issued and outstanding units, resulted in an increase to the adjusted cost base of each unit.

MANAGEMENT REPORT OF FUND PERFORMANCE

(March 20, 2008)

This annual report for the years ended December 31, 2007 and 2006 includes both the management report of fund performance, containing financial highlights, and the audited annual financial statements of Citadel Diversified Investment Trust.

Unitholders may contact us by calling toll-free 1-877-261-9674 or by visiting our website at www.citadelfunds.com to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGIES

Citadel Diversified's investment objectives are to provide its unitholders with a high level of monthly distributions and to maximize the net asset value of the Fund over its life. In order to achieve these objectives, the Fund's investment manager actively manages a diversified portfolio of oil and gas royalty trusts, real estate investment trusts ("Reits"), income funds and qualified limited partnerships.

RISK

There are a number of risks associated with an investment in Citadel Diversified. The principal risks include, but are not limited to, market and income risk. Market risk is the exposure to market price changes in the securities held within the portfolio which have a direct effect on the net asset value of the Fund. Income risk arises from a number of factors related to the operational performance of the issuers of the securities held in the Fund's portfolio. These risks include the effects of fluctuations in commodity prices, foreign currency conversion rates and interest rates and include general business operation risks, any of which may affect the issuers' income and as a result reduce distributions to its unitholders and the value of its units. Diversification and active management by the Fund's investment manager of the securities held in the portfolio may reduce these risks.

INCOME TRUST TAX

Bill C-52, an Act to implement certain provisions of the budget tabled in Parliament on March 19, 2007, was given Royal Assent on June 22, 2007 thereby passing into law the Government's imposition of a tax on income trusts starting in 2011. Since the announcement of the income trust tax in October 2006, takeover activity in the trust sector has been significant. We expect that a significant level of takeover activity will persist in the trust sector during the next few years as trusts consider tax mitigating restructuring alternatives leading up to 2011. The tax on income trusts does not directly impact Citadel Diversified, however the tax will impact many of the holdings within its portfolio.

RESULTS OF OPERATIONS

The overall income trust sector experienced much higher redemptions in 2007 relative to 2006 despite having produced a positive total return of 6.6% in 2007 compared to negative 2.8% in 2006. In addition to the negative funds flow into the sector, weakness in the energy and real estate sectors along with confirmation of the new tax on trust distributions commencing in 2011 weighed on overall valuations. Despite record high oil prices in 2007, energy related trusts were hampered by the rising \$Cdn and escalating costs as well as soft natural gas prices and the prospect of Alberta royalty rate increases. In addition, Reits suffered their first year of negative performance since 1998 as concern over the decelerating U.S. economy and U.S. real estate issues caused by tightening credit depressed Reit unit prices. On the positive side, strong acquisition and privatization activity provided some sector wide unit price support, particularly in the ongoing business trust sector.

As a result of these negative market conditions and the Fund's mandatory unit repurchases, Citadel Diversified's net assets decreased from \$351.4 million at December 31, 2006 to \$328.0 million at December 31, 2007. On a per unit basis, the Fund's net assets also declined from \$11.25 per unit at December 31, 2006 to \$11.08 at December 31, 2007.

The Fund's market price also declined significantly year over year, closing at \$8.96 per unit on December 31, 2007 down from \$9.67 per unit at the end of 2006. Citadel Diversified's market price decline plus monthly cash distributions produced a 5.5% total return for 2007, while the Fund generated a 12.1% total return on a net assets basis. By comparison, the S&P/TSX Income Trust Index returned 6.6% over the same period.

Total revenue increased slightly to \$34.0 million for 2007 compared to \$33.1 million in 2006. Administrative and investment manager fees, payable in cash, declined marginally from \$6.1 million for 2006 to \$5.9 million for 2007. Total general and administration costs, including portfolio transaction costs and other expenses, were \$0.98 million in 2007 compared to \$0.5 million in 2006. The main reason for the increase relates to the inclusion of portfolio transaction costs of \$0.37 million in 2007 which are not treated as an expense in 2006 due to the implementation of the new accounting standard on financial instruments. After total expenses, the Fund generated net investment income of \$27.1 million or \$0.89 per unit for 2007 compared to \$26.5 million or \$0.84 per unit for 2006.

During 2007, the Fund realized gains of \$31.2 million on dispositions of investments in the year as a result of many privatizations. In 2006, the Fund experienced net realized losses of \$1.1 million. Offsetting the realized gains were \$25.3 million of unrealized losses in 2007 (2006 – \$16.3 million unrealized losses) which generated total results of operations of \$33.0 million or \$1.08 per unit in 2007 compared to \$9.1 million or \$0.29 per unit in 2006.

For 2007, Citadel Diversified paid monthly distributions of \$0.085 per unit plus a special cash distribution of \$0.25 per unit at year end for a total of \$38.4 million or \$1.27 per unit. In addition, the Fund paid a special unit distribution of \$0.684 per unit to unitholders of record on December 31, 2007, which was payable in units of the Fund. The unit distribution was immediately consolidated into the Fund's previously issued and outstanding units, such that there was no impact to the net assets per unit. For 2006, the Fund paid total distributions of \$32.2 million or \$1.02 per unit.

TRADING PREMIUM (DISCOUNT) TO NET ASSET VALUE

For 2007, the Fund's market price traded at an average discount to its net asset value per unit of 14.1% compared to an average discount of 11.2% for 2006. With this discount, the Fund repurchased 1,656,400 units at an average cost of \$10.02 per unit for 2007 under its mandatory repurchase program compared to 1,530,100 units at an average cost of \$10.59 per unit for 2006. Under the Fund's mandatory repurchase program, the Fund is obligated to repurchase units offered for sale at a discount to net asset value of greater than 5%, subject to 1.25% per quarter of the units outstanding.

On November 20, 2007, the Fund entered into a normal course issuer bid whereby a total of 2,902,416 trust units may be repurchased for cancellation over a period of twelve months. For the year ended December 31, 2007, the Fund had repurchased 200,000 trust units pursuant to this bid at an average cost of \$9.08 per unit.

RECENT DEVELOPMENTS

Investment Fund Governance Legislation

During 2006, Canadian securities regulators passed legislation requiring independent oversight over the management of Canadian investment funds. National Instrument 81-107 – Independent Review Committee for Investment Funds ("NI 81-107") came into effect on November 1, 2006. Citadel Diversified's three person Independent Review Committee ("IRC") was formed on April 1, 2007 and became fully operational on November 1, 2007. The main responsibility of the IRC is to govern over perceived conflicts of interest between investment funds, their managers and related third parties. Policies and procedures were adopted on November 1, 2007 and the Fund was in full compliance with NI 81-107 at that time.

New Accounting Standards

The Canadian Institute of Chartered Accountants issued Section 3855 "Financial Instruments – Recognition and Measurement", Section 3861 "Financial Instruments – Disclosure and Presentation", Section 3865 "Hedges" and Section 1530 "Comprehensive Income" which became effective for financial statements relating to fiscal years beginning on or after October 1, 2006. These sections prescribe the criteria for recognition and presentation of financial instruments on the statement of net assets and the measurement of financial instruments according to prescribed classifications. These sections also address how financial instruments are measured subsequent to initial recognition and how the gains and losses are recognized. The Fund is required to designate its financial instruments into one of the following five categories: (i) held for trading, (ii) available for sale, (iii) held to maturity, (iv) loans and receivables, or (v) other financial liabilities.

Section 3855 further establishes a standard for the fair valuation of investments as well as the accounting treatment of transaction costs. Section 3855 requires that the fair value of financial instruments which are traded in active markets be measured based on the bid price for long securities and the ask price for short securities. Prior to the implementation of this new standard, the fair value of financial instruments traded in an active market was generally based on the closing price for the day. Section 3855 also requires that portfolio transaction costs incurred in the purchase and sale of investments be charged to net income in the period incurred. Prior to this new standard, these costs were added to the cost of the investments purchased or deducted from the proceeds of sale. Section 3855 has been applied prospectively without restatement of prior periods. An adjustment has been made to the opening net assets in the Statement of Changes in Net Assets in order to reflect the effect on investments held at December 31, 2006, of following section 3855 with respect to recording the fair value of investments at bid prices.

All financial instruments are to be initially measured at fair value. Financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net income and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost. All derivative financial instruments, including derivative features embedded in financial instruments or other contracts which are not considered closely related to the host financial instrument or contract, are generally classified as held for trading and therefore must be measured at fair value with changes in fair value recorded in net income. However, if a derivative financial instrument is designated as a hedging item in a qualifying cash flow hedging relationship, the effective portion of changes in fair value is recorded in other comprehensive income. Any change in fair value relating to the ineffective portion is recorded immediately in net income. Upon adoption on January 1, 2007, the Fund was not party to any derivative contracts. Portfolio investments were classified as held for trading and all other financial assets were classified as loans or receivables and are accounted for on an amortized cost basis. All remaining financial liabilities were classified as other financial liabilities.

As outlined in National Instrument 81-106 Section 14.2, the net asset value ("NAV") of an investment fund is to be calculated in accordance with Canadian GAAP. The Canadian Securities Administrators ("CSA") granted temporary relief to investment funds from complying with Section 3855 for the purpose of calculating and reporting of NAV (other than for financial reporting purposes) to permit review of the suitability of these financial reporting requirements for purposes other than the financial statements. This relief period has been extended until September 30, 2008. The CSA has proposed amendments to NI 81-106 that will permit funds to have two different net asset values; one for financial statements which will be prepared in accordance with Canadian GAAP (referred to as "net assets" or "net assets per unit"); and another for all other purposes (referred to as "net asset value" or "net asset value per unit"). Until that time, the Fund intends to calculate NAV under the old method, specifically using closing rather than bid prices, for all purposes other than financial statements. This Management Report of Fund Performance has been prepared based on the proposed amendments and the December 31, 2007 annual financial statements have been presented in accordance with the new accounting rules.

Section 1530, "Comprehensive Income", introduces a new financial statement "Statement of Comprehensive Income" and provides guidance for the reporting and display of other comprehensive income. Comprehensive income represents the change in equity of an enterprise during a period from transactions and other events arising from non-owner sources including changes in the fair value of the effective portion of cash flow hedging instruments. As required, prior periods have not been restated as a result of implementing Section 1530.

Future Accounting Pronouncements

The CICA issued three new accounting standards in 2007, section 1535, "Capital Disclosures", section 3862, "Financial Instruments – Disclosures", and section 3863, "Financial Instruments – Presentation". These standards become effective for the Fund in 2008. These new sections will place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the Fund manages those risks.

Section 1535 establishes disclosure requirements about an entity's capital and how it is managed. The purpose of this section will be to allow users of the financial statements to evaluate the entity's objectives, policies and processes for managing capital.

Sections 3862 and 3863 will replace section 3861, "Financial Instruments – Disclosure and Presentation", which will revise and enhance the disclosure requirements and will carry forward unchanged its presentation requirements.

RELATED PARTY TRANSACTIONS

Citadel Diversified Management Ltd. is the administrator of Citadel Diversified, which is a member of the Citadel Group of Funds. CIFSG Funds Inc. provides administrative services to the administrators of the Citadel Group of Funds on a cost recovery basis. All non-fund specific costs are allocated among the Citadel Group of Funds on a relative net asset value basis.

Pursuant to the administrative services agreement, total annual administrative and investment management fees are based upon 1.5% of the aggregate average weekly net asset value of the Fund, payable in cash in advance and subject to annual adjustment. The administrator is also reimbursed for all general and administrative expenses that relate to the operation of the Fund.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help the reader understand the Fund's financial performance. This information is derived from the Fund's audited annual financial statements for each year in the 5 year period ended December 31, 2007.

Net Assets per Unit ("NAPU")

	2007	2006	2005	2004	2003
NAPU, beginning of period	\$ 11.25	\$ 12.13	\$ 11.66	\$ 10.77	\$ 9.61
Increase (decrease) from operations:					
Total revenue	1.12	1.05	1.03	0.99	1.02
Total expenses	(0.23)	(0.21)	(0.21)	(0.19)	(0.18)
Realized gains (losses)	1.02	(0.04)	0.04	0.30	0.27
Unrealized gains (losses)	(0.83)	(0.51)	0.62	1.27	1.01
Total increase (decrease) from operations	1.08	0.29	1.48	2.37	2.12
Distributions:					
From net investment income	0.89	0.98	1.00	0.96	0.96
From capital gains	0.38	–	0.04	0.08	–
Return of capital	–	0.04	–	–	–
Total cash distributions	1.27	1.02	1.04	1.04	0.96
NAPU, end of period	\$ 11.08	\$ 11.25	\$ 12.13	\$ 11.66	\$ 10.77

NAPU and cash distributions per unit are based on the actual number of units outstanding at the time. The December 31, 2007 NAPU is based on bid prices and all prior NAPU are based on closing prices. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This schedule is not a reconciliation of NAPU since it does not reflect unitholder transactions as shown on the Statement of Changes in Net Assets and accordingly columns may not add.

At the end of 2007, the Fund declared a special unit distribution which is not reflected above. This unit distribution was immediately consolidated into the Fund's previously issued and outstanding units and as a result there was no impact to the net assets per unit.

Ratios and Supplemental Data

	2007	2006	2005	2004	2003
Net assets (\$ 000's)	\$ 328,028	\$ 351,384	\$ 337,572	\$ 334,986	\$ 251,767
Number of units outstanding	29,598,297	31,247,143	27,834,377	28,723,526	23,369,936
Management expense ratio	1.83%	1.75%	1.78%	1.74%	1.87%
Portfolio turnover ratio	27.66%	24.68%	15.97%	27.20%	15.16%
Trading expense ratio	0.10%	0.11%	0.05%	0.11%	0.04%
Closing market price	\$ 8.96	\$ 9.67	\$ 11.52	\$ 11.42	\$ 10.45

Management expense ratio is based on total expenses (excluding portfolio transaction costs) for the period and is expressed as an annualized percentage of weekly average net assets during the period.

Portfolio turnover ratio is based on the lesser of cost of purchases or proceeds of disposition and is expressed as a percentage of the monthly average portfolio value. The portfolio turnover rate indicates how actively the Fund's investment manager manages the portfolio investments. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of weekly average net assets during the period.

MANAGEMENT FEES

Pursuant to the administrative services agreement, total annual administrative and investment management fees are based upon 1.5% of the aggregate average weekly net asset value of the Fund, payable in cash in advance and subject to annual adjustment. Bloom Investment Counsel, Inc., as investment manager to the Fund, provides investment management services to the Fund in exchange for a portion of the management fee. These fees represent payment for the administrative and investment management services provided to the Fund.

PAST PERFORMANCE

Citadel Diversified's performance numbers represent the annual compound total returns over the period from inception in September 1997 to December 31, 2007 (except for returns of less than one year which are compound total returns). Total returns are based upon both the Fund's change in market price and net assets per unit plus the reinvestment of all distributions in additional units of the Fund. The Fund's initial public offering was on an instalment receipt basis, and as a result performance numbers for 1997 and 1998 assume that the \$4.00 per unit final instalment due September 1998 was actually paid at inception.

Returns do not take into account sales, redemptions or income taxes payable that would have reduced returns. Past performance of the Fund does not necessarily indicate how it will perform in the future.

ANNUAL COMPOUND RETURNS

In the table below are the annual compound returns for Citadel Diversified based on market price and net assets per unit with comparison to the S&P/TSX Capped Income Trust Index for the periods indicated to December 31, 2007. Historical information for the index is only available back to December 31, 1997. The S&P/TSX Capped Income Trust Index is a total return based on a market cap weighted index of all Global Industry Classification Standards of the income trust sector. In 2007, Citadel Diversified's net assets return exceeded the index due to its relative overweight position in the ongoing business trust sector which fared much better due to takeover activity.

AUDITORS' REPORT TO UNITHOLDERS

To the Unitholders of Citadel Diversified Investment Trust

We have audited the statements of net assets and investments of Citadel Diversified Investment Trust as at December 31, 2007 and 2006 and the statements of operations and comprehensive income and changes in net assets for the years ended December 31, 2007 and 2006. These financial statements are the responsibility of management of the Fund's Administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the net assets and investments of the Fund as at December 31, 2007 and 2006 and the results of its operations and the changes in its net assets for the years ended December 31, 2007 and 2006 in accordance with Canadian generally accepted accounting principles.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2007 and 2006

1. STRUCTURE OF THE FUND

Citadel Diversified Investment Trust (the "Fund" or "Citadel Diversified") is a closed-end investment trust established under the laws of Ontario pursuant to a Declaration of Trust dated as of July 11, 1997. The Fund commenced operations upon completion of its initial public offering on September 16, 1997. The term of the Fund continues until December 31, 2012 in accordance with the provisions of the Fund's Declaration of Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements, prepared in accordance with Canadian generally accepted accounting principles, include estimates and assumptions by management that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from these estimates. The following is a summary of the significant accounting policies.

(a) Cash and term deposits

Cash consists of cash on hand and short term bankers' acceptances with maturities of less than 90 days on acquisition.

(b) Valuation of investments

Investments are valued at fair value. The fair value of securities which are actively traded are valued at bid price as published on the recognized stock exchange on which the investment is listed or principally traded. Prior to January 1, 2007, investments were generally valued at the closing price. The fair value adjustment from the closing price as at December 31, 2006, to the closing bid price for investments at December 31, 2007, is reflected in the Statement of Changes in Net Assets. Investments not traded on the valuation date are valued at the average of the closing bid and ask prices. Average cost is used to compute realized and unrealized gains or losses on investments. Investment transactions are recorded on the trade date.

(c) Canadian income taxes

The Fund qualified as a unit trust within the meaning of the Income Tax Act (Canada). Provided the Fund distributes to its unitholders its net income for tax purposes, the Fund will not generally be liable for income tax under Part 1 of the Income Tax Act (Canada). As all taxable income was allocated to the unitholders, no provision for income taxes has been made in these financial statements.

(d) Investment income

Dividend income is recorded on the ex-dividend date, interest and securities lending income is recognized as earned and distribution income is recognized on the ex-distribution date. Capital gains and losses are recognized on the trade date.

(e) New Accounting Standards

The Canadian Institute of Chartered Accountants issued Section 3855 "Financial Instruments – Recognition and Measurement", Section 3861 "Financial Instruments - Disclosure and Presentation", Section 3865 "Hedges" and Section 1530 "Comprehensive Income" which became effective for financial statements relating to fiscal years beginning on or after October 1, 2006. These sections prescribe the criteria for recognition and presentation of financial instruments on the statement of net assets and the measurement of financial instruments according to prescribed classifications. These sections also address how financial instruments are measured subsequent to initial recognition and how the gains and losses are recognized. The Fund is required to designate its financial instruments into one of the following five categories: (i) held for trading, (ii) available for sale, (iii) held to maturity, (iv) loans and receivables, or (v) other financial liabilities.

Section 3855 further establishes a standard for the fair valuation of investments as well as the accounting treatment of transaction costs. Section 3855 requires that the fair value of financial instruments which are traded in active markets be measured based on the bid price for long securities and the ask price for short securities. Prior to the implementation of this new standard, the fair value of financial instruments traded in an active market was generally based on the closing price for the day. Section 3855 also requires that portfolio transaction costs incurred in the purchase and sale of investments be charged to net income in the period incurred. Prior to this new standard these costs were added to the cost of the investments purchased or deducted from the proceeds of sale. Section 3855 has been applied prospectively without restatement

of prior periods. An adjustment has been made to the opening net assets in the Statement of Changes in Net Assets in order to reflect the effect on investments held at December 31, 2006, of following section 3855 with respect to recording the fair value of investments at bid prices.

All financial instruments are to be initially measured at fair value. Financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net income and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost. All derivative financial instruments, including derivative features embedded in financial instruments or other contracts which are not considered closely related to the host financial instrument or contract, are generally classified as held for trading and therefore must be measured at fair value with changes in fair value recorded in net income. However, if a derivative financial instrument is designated as a hedging item in a qualifying cash flow hedging relationship, the effective portion of changes in fair value is recorded in other comprehensive income. Any change in fair value relating to the ineffective portion is recorded immediately in net income. Upon adoption on January 1, 2007, the Fund was not party to any derivative contracts. Portfolio investments were classified as held for trading and all other financial assets were classified as loans or receivables and are accounted for on an amortized cost basis. All remaining financial liabilities were classified as other financial liabilities.

Section 1530, "Comprehensive Income", introduces a new financial statement "Statement of Comprehensive Income" and provides guidance for the reporting and display of other comprehensive income. Comprehensive income represents the change in equity of an enterprise during a period from transactions and other events arising from non-owner sources including changes in the fair value of the effective portion of cash flow hedging instruments. As required, prior periods have not been restated as a result of implementing Section 1530.

The fair values of the Fund's financial instruments which are comprised of cash and term deposits, prepaid expenses, accounts receivable, revenue receivable, investments, accounts payable, payable for investments purchased and distributions payable approximate their carrying amount due to the short-term maturity of these instruments.

(f) Future Accounting Pronouncements

The CICA issued three new accounting standards in 2007, section 1535, "Capital Disclosures", section 3862, "Financial Instruments – Disclosures", and section 3863, "Financial Instruments – Presentation". These standards become effective for the Fund in 2008. These new sections will place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the Fund manages those risks.

Section 1535 establishes disclosure requirements about an entity's capital and how it is managed. The purpose of this section will be to allow users of the financial statements to evaluate the entity's objectives, policies and processes for managing capital.

Sections 3862 and 3863 will replace section 3861, "Financial Instruments – Disclosure and Presentation", which will revise and enhance the disclosure requirements and will carry forward unchanged its presentation requirements.

3. UNITHOLDERS' CONTRIBUTION

Authorized

The authorized capital of the Fund consists of an unlimited number of trust units which are transferable non-redeemable units of beneficial interest.

Issued and outstanding	December 31, 2007		December 31, 2006	
	Number	Amount	Number	Amount
Trust units – beginning of year	31,247,143	\$ 291,294,380	27,834,377	\$ 254,397,223

Trust units – end of year	29,598,297	\$ 295,013,374	31,247,143	\$ 291,294,380

The weighted average number of units outstanding for the year ended December 31, 2007 was 30,520,625 units (2006 – 31,612,449 units).

The Fund completed a rights offering on February 6, 2006 with the issuance of 4,938,300 units for net proceeds of \$53.1 million. Each unitholder of record on January 9, 2006 received one right for each trust unit held. Four rights entitled the holder to purchase one trust unit for a price of \$10.90.

The Fund declared a special unit distribution of \$0.684 per unit to unitholders of record on December 31, 2007 which was payable in units of the Fund. This unit distribution was immediately consolidated into the Fund's previously issued and outstanding units.

The Fund has a mandatory repurchase program whereby units offered for sale at a discount to the Fund's net asset value per unit of greater than 5% are repurchased for cancellation. This program is subject to a maximum in each calendar quarter of 1.25% of the total number of units outstanding at the beginning of such quarter. For the year ended December 31, 2007, a total of 1,656,400 trust units were repurchased for cancellation under the program at an average cost of \$10.02 per unit (2006 – 1,530,100 trust units at an average cost of \$10.59 per unit).

On November 20, 2007, the Fund entered into a normal course issuer bid whereby a total of 2,902,416 trust units may be repurchased for cancellation over a period of twelve months. For the year ended December 31, 2007, the Fund had repurchased 200,000 trust units pursuant to this bid at an average cost of \$9.08 per unit.

4. ADMINISTRATIVE AND INVESTMENT MANAGER FEES / DIRECTORS' FEES

Citadel Diversified Management Ltd. ("CDML") is the administrator of the Fund and therefore a related party to the Fund. Bloom Investment Counsel Inc. is the investment manager of the Fund. Pursuant to the administrative services agreement, total annual administrative and investment management fees are based upon 1.5% of the aggregate average weekly net asset value of the Fund, payable in cash or units in advance and subject to annual adjustment. CDML elected to receive cash fees of \$5,017,978 (2006 – \$5,834,582) in respect of twelve months of services ending September 16, 2008. For the year ended December 31, 2007, the Fund recorded an expense of \$5,928,009 (2006 – \$6,055,032) in respect of administrative and investment management fees earned during the period. The administrative services agreement also provides for the reimbursement of certain expenses incurred by the administrator during the performance of its duties. As at December 31, 2007, included in accounts payable were amounts owed from CDML of \$19,895 (2006 – \$55,042 included in accounts receivable).

Directors of CDML received a total of 6,195 units for a value of \$62,500 in September 2007 (4,566 units for a value of \$62,500 in September 2006) as payment for their annual retainers. In addition, a new director of CDML received 1,359 units for a value of \$12,503 in February 2007 for director services rendered.

5. INVESTMENTS

The net realized gain (loss) on the sale of investments was determined as follows:

For the years ended December 31	2007	2006

7. LOAN FACILITY

The Fund maintains a revolving credit facility with a Canadian chartered bank for up to a maximum amount of \$15,000,000 of which no amount was drawn as at December 31, 2007 and 2006. Borrowings are collateralized by a demand debenture in the amount of \$55,000,000 which provides a first floating charge over the Fund's assets. The credit facility bears interest at the bank's prime lending rate or at rates slightly below prime if incurred by way of bankers' acceptances. The credit facility is a revolving facility that will revolve until July 29, 2008 and for a further 364 days at the option of the bank. The maximum and minimum borrowings in 2007 were nil.

8. PORTFOLIO TRANSACTION COSTS

For the year ended December 31, 2007, the Fund incurred portfolio transaction costs of \$369,066 (2006 – \$403,265) and they are recorded separately in the Statement of Operations for 2007 only, as per Note 2(e).

9. SECURITIES LENDING

The Fund engaged in securities lending during 2007 and as at December 31, 2007, the Fund had lent out \$57.2 million (2006 – \$79.5 million) of its portfolio securities with \$60.1 million (2006 – \$85.6 million) of collateral in primarily federal and provincial bonds.
